

Project Profile

**Client:**

Polytech School District

# Polytech High School

**Design Professional:**

Breslin, Ridyard, Fadero Associates

**Location:**

Woodside, DE

**Delivery Method:**

Construction Management

**Key Challenges:**

- To update the existing high school through extensive renovations and an addition.
- To construct a competitive running track and athletic field upgrades.

The scope of the Polytech High School project included a 60,000 square foot addition and extensive renovations to the existing 100,000 square foot structure including classroom updates, science labs, video conferencing center, and cafeteria. In addition, the construction of a competitive running track was executed as well as athletic field upgrades.
